How shall we go to Fredericktown? The method agitates the minds of many who would like to take in the Odd-Fellows' celebration to-morrow. The trip is about as wearisome as by rail as by back.

T. S. Lopez & Sons expect an expert Milliner—Miss Lawrence—the last of this week, to take charge of the department which most interests the ladies. New goods in the latest styles are coming in every day.

Circuit court commenced last Monday afternoon, and proceeded to business at once. Judge Green charged the grand jury and sent them to their room, and then began on the docket, which promises to be pretty well knocked out by Saturday.

We understand, a year or two ago, in excavating a mound in an adjoining county, some corn was found in a sealed jar that has proved very prolific. It is supposed to have been placed there by the mound-builders, as the jar was of a kind usually ascribed to them.

Presbyterian church services next Sabbath. Subject for 11 A. M.: "The Answer of the Church to the Need of the World." Subject for 7:30: "Laughter." Subject for 3 P. M.: "Grantville: A Christian Privilege." Prayer-meeting Wednesday evening.

Geo. H. DUTY, Pastor.

The case of State vs. H. Alcorn, for assault on the person of R. E. Erb-schloe was tried Monday afternoon in the circuit court. The evidence showed that the defendant had struck Mr. E. on the head with a stone, but it was claimed the blow was given in self-defense. The jury took the case in the evening, and rendered a verdict of not guilty next morning.

Wm. A. Fletcher, this week, announces himself a candidate for election to the office of County Clerk—subject, of course, to the Democratic primary election. "Bill" is known to every man, woman and child in the county, as a good man and an honest and efficient official, and a Democrat of no uncertain sound. We leave him in the hands of his friends.

A CARD OF THANKS—The pastor of the Presbyterian church, for the ladies who were engaged in making a success of the entertainment by Ralph Bingham, wants to return thanks to those who sold tickets, to the editor of this paper for his kindness in advertising us, to the Band for their excellent music, and to all who in any way contributed to the success and pleasure of the entertainment.

Jos. A. Reyburn this week announces himself a candidate for County Clerk, subject to the Democratic Primary. Everybody knows "Joe" as intelligent, honest, capable, and Democratic "from skin to core, and from core back to skin again." This being the case, we leave him to the tender mercies of the rank and file of the Democratic party of Iron county. As they decide, we will all cheerfully abide.

The entertainment given by Ralph Bingham and sister, under the auspices of the Presbyterian ladies, at the Academy of Music last Monday evening, was an excellent one, and attended by a fair-sized audience. A multiplicity of duties elsewhere that evening deprived us of the pleasure of being present—except for a few minutes—but those who were more fortunate are generous in favorable expressions as to its merits.

The old Delano building opposite Jno. Albert's store is being torn down and carted away. The lot on which it stands—or stood—belongs to one party, and the house to another; they couldn't agree; a price was offered for the house by the owner of the lot, but the former refused to accept it, and the building is gone, and we are glad of it. It ought never to have been put there, it having been in the first instance removed from Delanotown long after its youth and beauty had departed.

During the storm of Tuesday of last week, the lightning was frequent and promiscuous in its favors. It struck at least three times in the Valley: once in the north end of Ironton on the mountain side; once near the Company's stables in Pilot Knob; and, again, in the convent grounds in Arcadia. In the latter instance, it struck one of the large trees in front of the main entrance to the building, tearing off the bark and splintering the wood. Though several persons were startled none were shocked or injured.

The pupils recited their pieces finely; in fact it was the best entertainment ever given in the town. The programme is so long it will take too much time and space to tell it, but I must say, in behalf of the citizens of this community, that they were well paid for their visit to the entertainment Friday night.

Wm. Landers of Sabula also has a very sore hand. While making a wedge he cut his thumb nearly off with an ax.

John Alcorn, the road supervisor of this district, made an attempt last Wednesday to open the fence at the place where the new road is laid out to cross the railroad, about a mile south of Sabula. He was met by the section men and ordered to stop (they having orders to prevent any interference on the part of the county road authorities). This attempt and prevention being deemed necessary to throw the matter into the courts.

I am requested to say that there will be a gathering at the grave yard on the first of May, for the purpose of clearing off the grounds that was begun last year. All parties are requested to bring dinner and stay all day and make the occasion one of pleasure as well as one of duty and a labor of love. If the weather should be inclement on the first, then come on the second of May.

A telegram Thursday from Leeper announced the death of Wm. Francis, who lived near Cottonville, a little station on Clarkson's lumber road. Mr. Francis being a member of Granite Lodge, I. O. O. F., a meeting was called and J. S. Benson and your correspondent were delegated to go down and take charge of the corpse, and (that being the desire of the widow), to bring it to Annapolis for interment. Accordingly, we boarded No. 53 at 2:35 Friday morning, and at about 4:30 arrived at Leeper, where, after taking a hasty breakfast, (hasty because we had to wait until nearly train time for it,) we boarded the log train and started for Cottonville. Seymour Malcom was the conductor. Mr. Malcom is well known along the line of this road, being an old I. M. brakeman. We also found an old resident of Annapolis in the person of Fate Goodman, working in the capacity of brakeman on the log train. There were shown to us the greatest curiosity by the people of the Clarkson R. R., from the general manager down—but more of this later. We will follow the little train as it danced along over the ties on its way to the logging camp. The way lay over a long trestle, thence up a long, pleasant valley bedecked with beautiful fields of fertile soil, and the pleasant and commodious farm houses bespeaking the wealth and prosperity of the inhabitants. That little valley is called Greenwood Valley. A beautiful name, but not more beautiful than the valley itself. At the head of this valley the road ascends the hill. At the top of the hill there is a switch, which they have named Tip-Top; there is a complete horse shoe curve there, making the name the more appropriate, as it in that respect resembles the curve on the I. M. R. R. just south of Tip-Top. The engines on this road burn pine knots, many cords of which are piled along the road. After we passed Tip-Top we descended into another beautiful valley, which Mr. Malcom informed us was called Webb's Valley.

After winding and turning from one beautiful scene to another, we at last reached Cottonville. There we met the smiling face of Joseph Sutton, who is doing the smithing for the company at that place. There we learned that, owing to the river being so high, teams could not cross to Piedmont. No coffin had been secured for the corpse. Here Mr. Benson turned back to Leeper to secure a coffin, and Joseph Sutton and your correspondent went on up the branch toward Barnesville to the late residence of Wm. Francis. On our way up from Cottonville we met Mr. Stone, the general foreman of that part of the works. He has a pleasant face and a kind voice, which he is not averse to using upon all occasions. Here we found more beautiful scenery, and what is more, a house in any country, we found pleasant faces of both ladies and gentlemen. The afternoon train brought the coffin, and Mr. Clarkson gave orders to hold the train until the funeral party were ready to go. Which, however, was, owing to good luck, only a few minutes. A Mr. Jordan was conductor on this train, and a colored man at the throttle. And a more gentlemanly crew we have never met.

Mr. Clarkson himself boarded the train at Cottonville on the return trip, and the utmost kindness and regard was shown us. And one fact I want to make special mention of, and that is, that Mr. Clarkson, who is General Manager of the Leeper Railroad and Saw Mill Company, went in person to the Iron Mountain depot to make sure that there should be no trouble in securing transportation for the corpse, (there is no night office at Leeper,) and then took us up to his house for supper. While at Leeper we visited the saw mill, which is a monument to human ingenuity. It is said to have a capacity of 150,000 feet of lumber daily, and employs in all a little over two hundred men.

We arrived home about two o'clock Saturday morning, and the corpse was taken to the residence of Mr. J. J. Francis, from whence it was taken to the cemetery, where the last sad rites were performed by the Odd-Fellows.

Persons who are subject to attacks of bilious colic can almost invariably tell, by their feelings, when to expect an attack. If Chamberlain's Colic, Cholera, and Diarrhoea Remedy is taken as soon as these symptoms appear, they will be relieved. Such persons should always keep the Remedy at hand, ready for immediate use when needed. Two or three doses of it at the right time will save them much suffering. For sale by Mrs. P. R. Crisp.

From Goodwater.

Ed. Register.—News hereabouts is almost as scarce as the proverbial "hen's-teeth."

Farmers in this section, as in all other portions of the surrounding country, are doing their utmost to improve "each shining hour" since the weather has moderated sufficiently to make it safe to sow oats and plant corn. Of course a portion of the oats-crop was sowed a month ago or longer, but it was badly damaged by the unusually prolonged cool weather and successive frozes. In some instances farmers have found the first-sown oats so completely killed that they have re-plowed the ground and planted it to corn.

Considering the weather of the past six weeks, wheat in this neighborhood looks well.

Rev. Mr. W. W. Hopkins, of near Courtois, was in this vicinity recently on business.

At least ten persons of this neighborhood have been subpoenaed to attend circuit court at Ironton next week.

A furious wind-storm accompanied by considerable rain passed over this section last Tuesday, 17th inst. On the afternoon of the next day we were visited by a hail-storm for duration and size of stones far exceeded any we have witnessed since our removal to this country in 1877. Some of the hail stones were by actual measurement, found to be 2 1/2 inches long. Most of them were elliptical in form and many of them were still to be seen for at least an hour after the storm, which ended with a very heavy rain. It is said that at Crocker's mill hail stones fell that a pint cup would not hold. Just after that storm passed, a storm cloud arose in the south-west, with all the appearances of a hurricane. It passed over considerably south of us and information has reached us since then, that at Adam Henderson's the house, stables and crib

were unroofed and partially blown down and much fencing leveled with the ground. It is said the storm then passed some distance northwest of Mr. A. H. Eaton's, up-rooting a great deal of pine and other timber.

At Wallace Martin's, on Cub Creek, it is said, the hurricane got in its work of devastation by completely blowing down his stables, crib and other buildings and leaving all the fields unfenced. It is reported that his wagon-bed was blown against a stump of a tree, and reduced to splinters. So far as heard from, no loss of life or personal injuries resulted from the effects of the storm.

Messrs. Wm. Carl and Wyatt King have been subpoenaed to attend the U. S. District Court in St. Louis next week.

Mr. J. J. Townsend has ordered a new planer from St. Louis. It is expected to arrive next week and will be placed in position and operated at Crocker's mill, where Mr. T. has nearly or quite 200,000 feet of lumber ready for planing.

Wm. B. Ramsey having failed to secure a desired water privilege between here and J. P. Barger's, concluded not to move his saw mill to that locality. He has bought all the pine, and a portion of the oak timber, on a tract of land near Chas. Yount's. He had previously bought the Geo. H. Loomis saw mill plant and intends to convert the above named timber into lumber at said mill near Council Bluffs, this county. Mr. Ramsey is one of Washington county's most intelligent and prosperous farmers and a thoroughly reliable and wide-awake business man. April 21st, 1894. R. E.

Obituary.

Ed. Register.—Please publish in the REGISTER this obituary for the benefit of all whom it may concern:

Just at 6 o'clock Sunday morning, April 12th, 1894, OLD UNCLE ZENAS ADAMS, of Goodland, Mo., fell asleep—that long, sweet sleep from which none ever wake to weep.

He was a victim of Bright's Disease for about a year before he died, and was confined to his bed four months prior to his death.

He came to this State about the year 1830; was seventy-eight years and three months old; has been a helpless invalid sixty-four years. His father (David Adams) was an old soldier under Gen'l Jackson in the Black Hawk war. Zenas Adams left some old relics, which have been handed down to several generations: A pocket-knife which belonged to his father's great-grandfather. He was one of the charter members of the Baptist church at Goodland, which was organized about 50 years ago, and which is still contending for the truth.

"One gentle sigh their fetter breaks: We scarce can say, 'They've gone!' Before the willing spirit takes Her mansion near the throne." BEN.

My wife was confined to her bed for over two months with a very severe attack of rheumatism. We could get nothing that would afford her any relief, and as a last resort gave Chamberlain's Pain Balm a trial. To our great surprise she began to improve after the first application, and by using it regularly she was soon able to get up and attend to her house work.

E. H. Johnson, of C. J. Knutson & Co., Kensington, Minn. 50 cent bottles for sale by Mrs. P. R. Crisp.

COUGHING LEADS TO CONSUMPTION. Kemp's Balsam stops the cough at once.

When Baby was sick, we gave her Castoria. When she was Child, she cried for Castoria. When she became a Woman, she clung to Castoria. When she had Children, she gave them Castoria.
